

LAW⁺IT

Law + Innovation & Technology

Applying best-in-class processes and technologies to the practice of law.

w|E

Lawyers and tech entrepreneurs, who saw innovation happening in every other sector... and the legal industry being left behind.

We believe the intersection of Law and Technology gives the profession a tremendous opportunity to reshape the delivery of legal services.

WHAT

We help transform the legal profession.

Driving innovation in legal services.

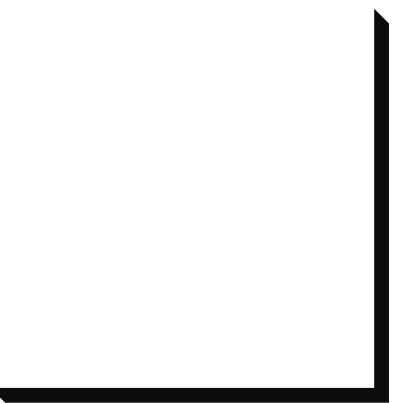

&

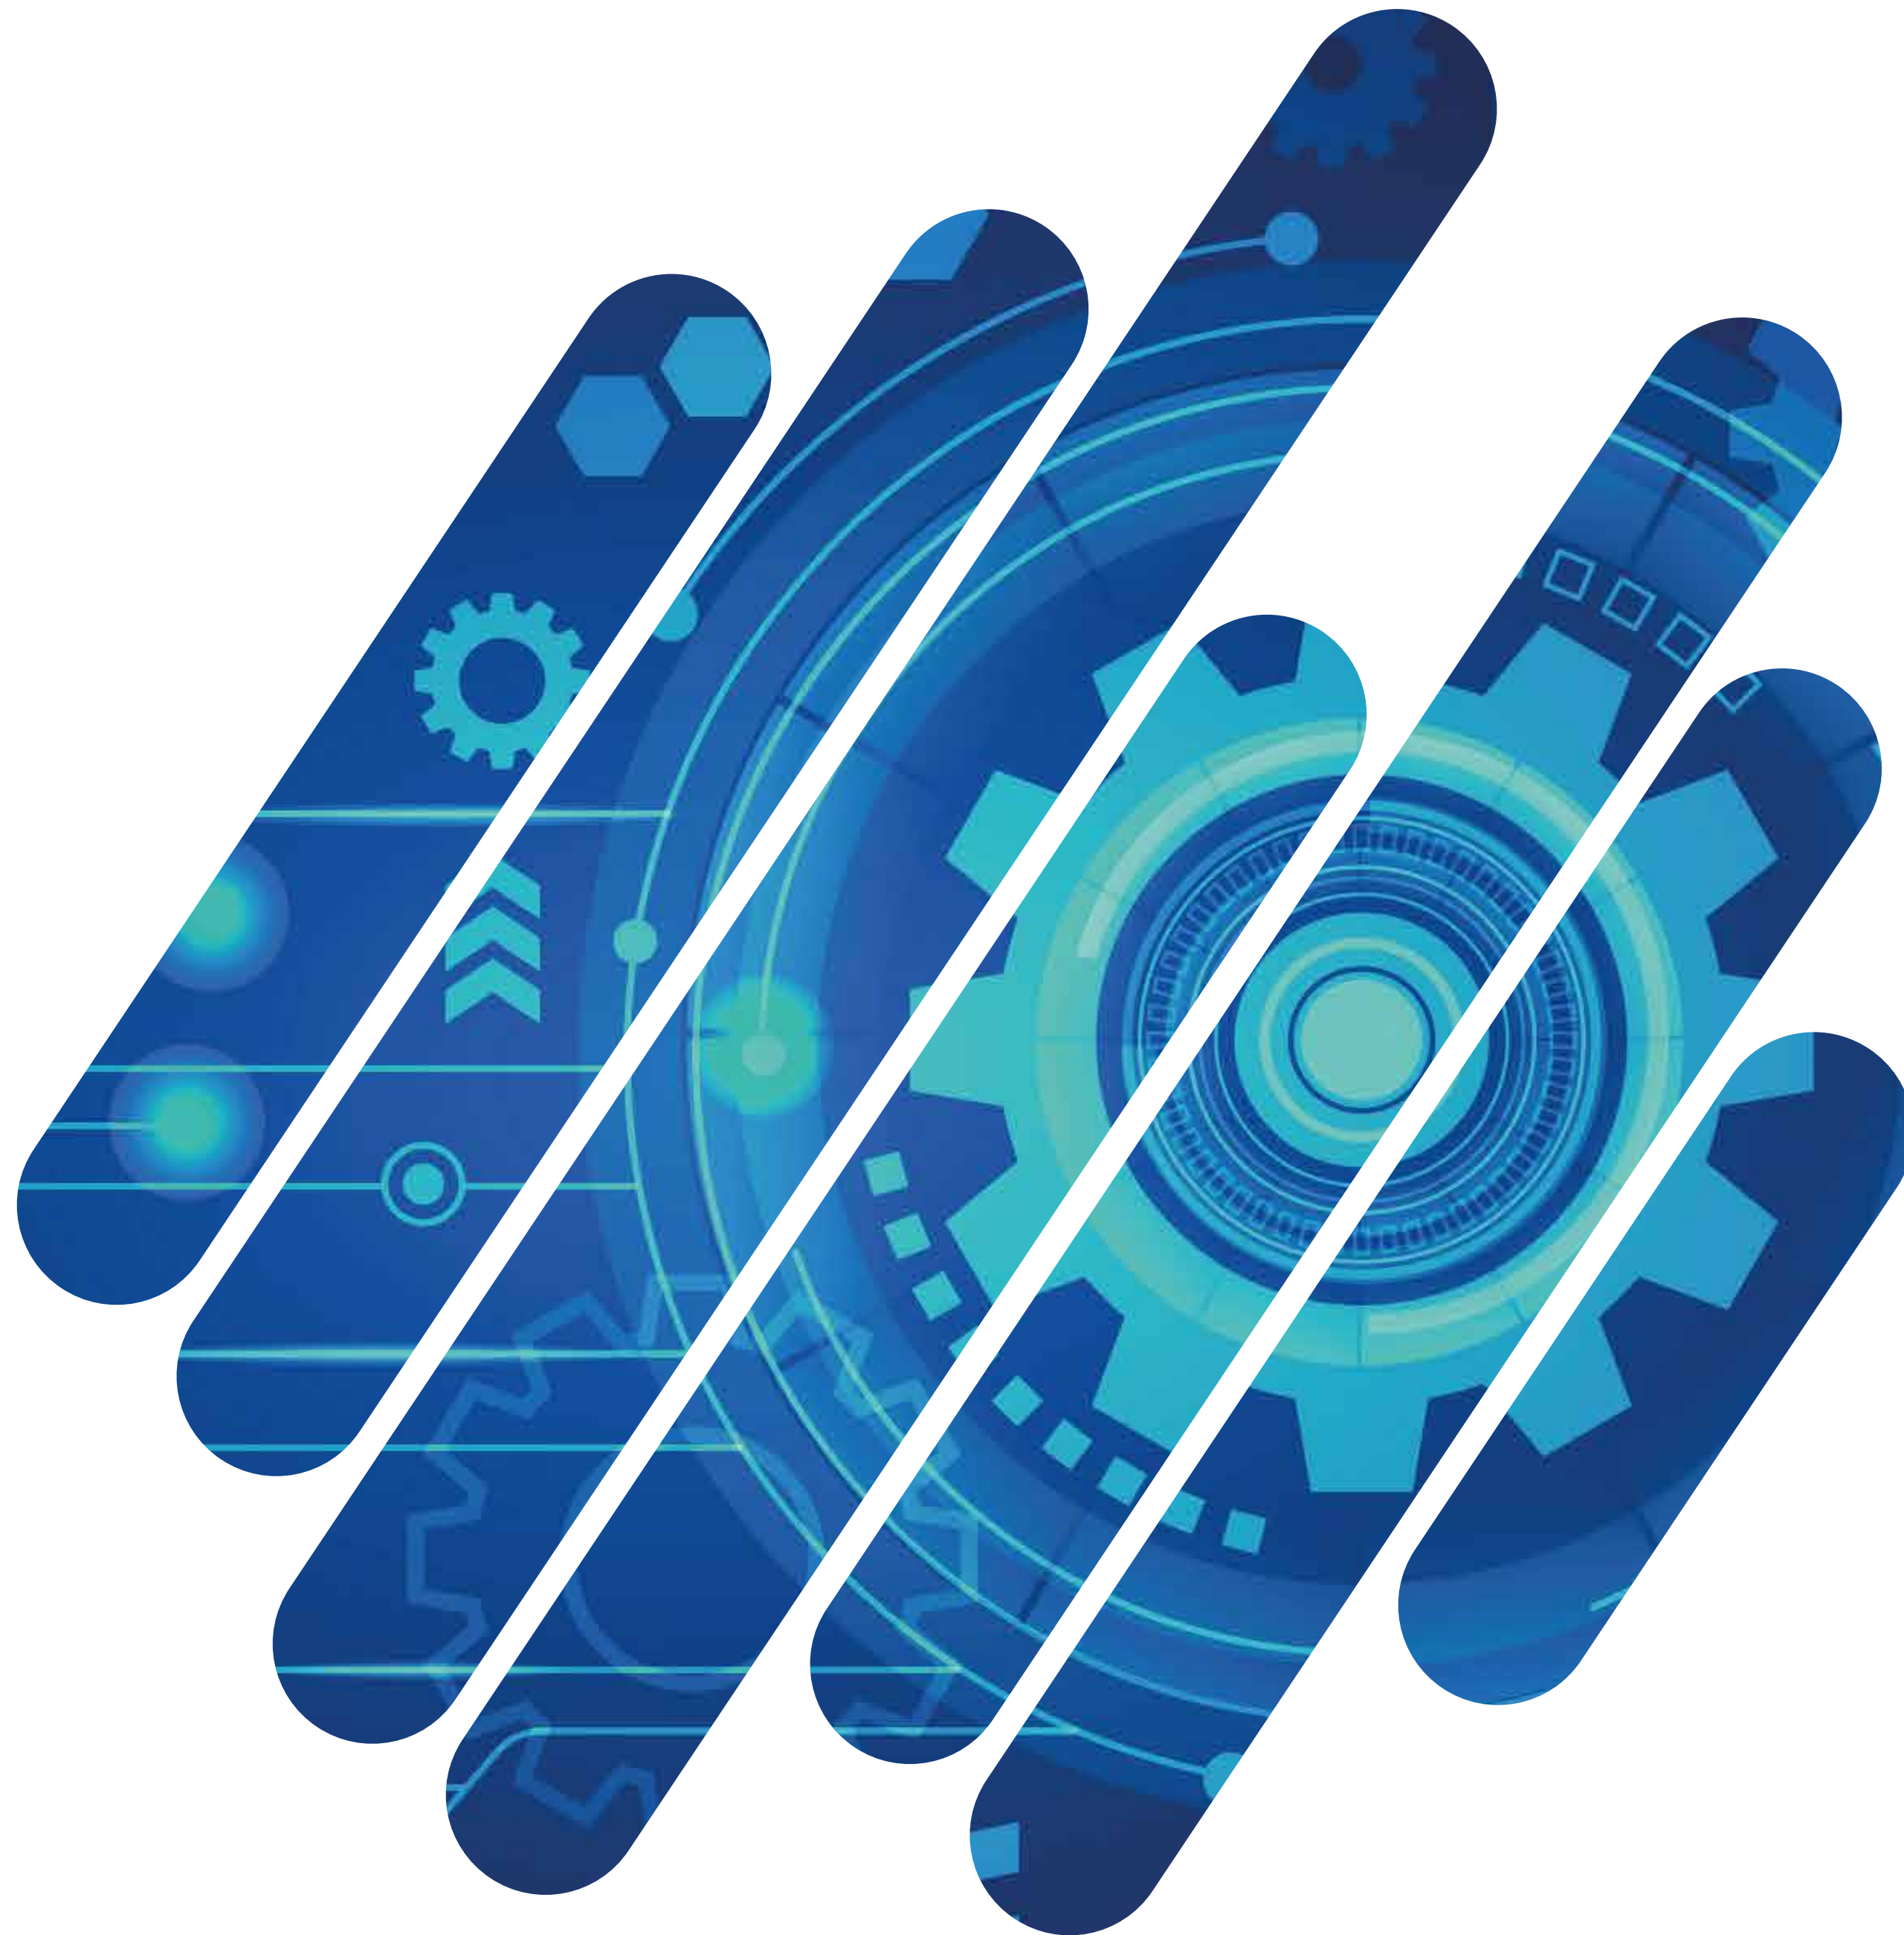

Selecting and implementing technology and best practices tools that will fundamentally change the practice of law.

WHY

Emerging technologies are changing the rules for the delivery of legal services.

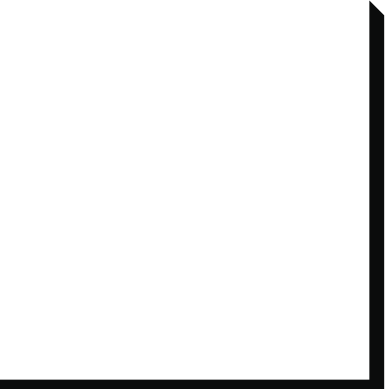

Law Departments need to change...just as Law Firms need to evolve.

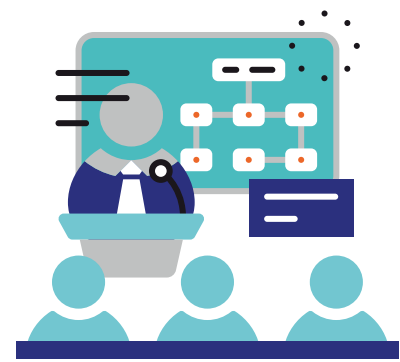

How

We provide our clients (we call them... business partners) smarter ways to work, by offering innovation and technology solutions, through strategic resources.

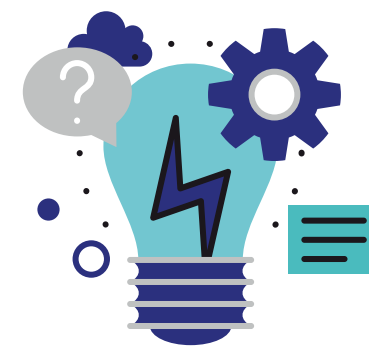

OUR RESOURCES

LEGAL SUMMITS

Presenting latest trends, and sharing guidance on their challenges and opportunities

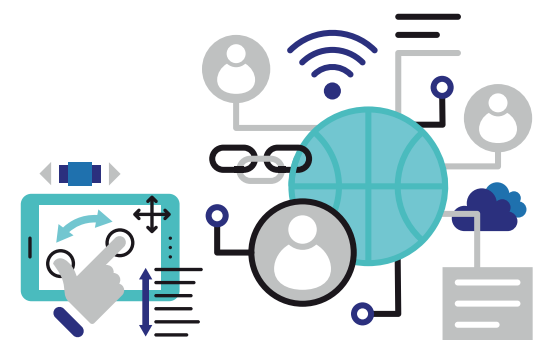

LEGAL INNOVATION CENTER

Testing and launching ideas, solutions and public policy in the legal industry.

IN-HOUSE OPS

Sharing and exploring best operational practices, for corporate legal counsel.

LAW FIRM LEADERS FORUM

Providing innovative strategies to assist in the modernization of private practice.

LEGAL MANAGEMENT CONSULTING

Developing more profitable business, by improving legal performance, reducing risks, and saving on legal costs.

START-UP

Partnering with Start-Ups in the legal industry, to provide advisory, financing, and strategic support to transform ideas into business opportunities.

CONTACT US

We can help you dominate the new market for legal services, through the use of technology and innovation.
